Course on React which is demanding nowadays
6.https://www.udemy.com/course/react-redux/

Some Project idea based on Use of React and Building clone of netflix, amazon ,spotify,etc
7.https://www.youtube.com/c/CleverProgrammer/playlists

Enjoy your Learning .
For intern, spend 70% time on DSA and 30% on project +other cs stuffs.
For Placement , Try to add Good Project on Resume.
For project , try to find some other project idea on Github also.
Best of Luck
